## TRAINING SCHOOL

The small arms range framework can operate a training school which is made up of a number of divisions, including: Hand to hand combat, Basic and Field specific firearms training including a broad variety of activities such as - Personal Security, Delegation Security, Mobile Security, Educational Institutions Security in accordance with predetermined terms. The school further includes advanced training for security in large facilities in the following sectors:

- ▶ Aviation
- ▶ Shipping
- ▶ Public Corporations

The school can accommodate other types of requirements of clients from India and overseas.

The school also prepares the field agents from basic to advanced training, including security in all the levels of each facility. The training includes surprise drills which are derived from threat assessments and possible event occurrences with which the security guard is likely to be presented with.
